DETAILED ACTION

Receipt of applicants' amendments and remarks submitted December 11, 2007 is acknowledged. Notice of appeal was filed January 16, 2007.

The prosecution is reopened in favor of following action.

Claim Objection

1. Claim 1, 3-6, 9, 11, 13 and 14 are objected to because of the following informalities:

claim 1 recites "encapsulating" which appears to be a typographic error of "encapsulated."

"compositions" recited in claims 3-6, 9, 13 and 14 should be "composition" as the claims ultimately depend on claim 1, which recites "composition."

"nanogram" recited in claim 13 should be *nanometer*. See the claim in issued patent.

Appropriate correction is required.

2. The disclosure is objected to because of the following informalities: The amendemnts of specification submitted June 2, 2000 state : "FIG 2 indicate...." "FIG 2" should be "FIG 1".

Appropriate correction is required.

Claim Rejections 35 U.S.C 251

3. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: no citizenships are disclosed for inventors Robert Reid; Jean Setterstrom; Thomas Van Cott; and Deborah Birx.

4. Claims 1-14 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Remarks

Another error identified as an error supporting reissue application is that: patent claim 11 is a duplicate of patent claim 7.
